

## **Requisite Technology Wins National Award From VARBusiness Magazine**

**Chicago, Jun. 14, 2006** – Requisite Technology Inc., a leading provider of channel management, eCommerce and master data management solutions, has been recognized by CMP Technology's VARBusiness magazine as one of North America's top technology integrators. Requisite Technology was presented with the Ascension Award at a gala ceremony held in conjunction with the VARBusiness 500 Conference in New York City on June 13. The Ascension Award recognizes the company that rose the largest number of places over last year's VARBusiness 500 list. Requisite Technology was one of only 17 North American solution providers honored by the biweekly magazine.

"The VARBusiness Award recognizes our success in delivering solutions that support the extended enterprise," said Nancy Koenig, executive vice president of operations for Requisite Technology. "From our origins managing the channel, our RFID-enabled Software-as-a-Service solutions now also address the unique needs of the Supply Chain and the Service Supply Chain accommodating the unique business processes of industries such as manufacturing, aerospace and defense, financial services, and high-tech."

VARBusiness Editor Lawrence M. Walsh says, "The information-technology distribution channel is blossoming and companies like this year's 17 winners are contributing significantly to that growth." Requisite Technology will be featured in a special issue to be published on July 10, which will outline the definitive list of 2006 VARBusiness 500 Solution Providers in North America.

To complete the 2006 ranking of the 500 largest North American solution providers, VARBusiness partnered with research firm Answers Research to help collect and analyze the data. VARBusiness designed the survey, which was administered on its Web site between February and April 2006, as a means to collect the data. Independent data sourcing (e.g., SEC filings, annual reports, etc.) also was conducted. Finalists were ranked according to their fiscal year 2005 revenue, based only on their reseller-related services business.

### **About VARBusiness Magazine**

For the past 19 years, VARBusiness' strategic resources have been the gateway to the Solution Provider community. VARBusiness provides strategic insight for technology integrators through industry-defining research, in-depth editorial, channel events and innovative Web services, enabling these IT professionals to make educated decisions for their businesses, partnerships and customers. VARBusiness has been the recipient of numerous industry awards for both editorial content and design.
